• Mirpur-2,Dhaka-1216, Bangladesh

Skills

JavaScript • TypeScript • React.js • Next.js • React Native • Node.js • Redux.js • TypeScript • C/Java • REST API • MongoDB • MySQL • Git & GitHub • Adaptivity • Fast Learner.

Experience

Leading IT and digital marketing company.

Techwoozy LLC

06/2023 - 10/2024

As a Front-End Developer I worked in a hybrid capacity, combining both remote and in-office collaboration to design and develop modern web applications. I utilized Next.js, React.js, Node.js, and Tailwind CSS to create responsive and scalable user interfaces. Additionally, I contributed as a JavaScript developer, building interactive and dynamic features to enhance user experience and meet business objectives. While working on projects, I followed both Agile and Waterfall project management methodologies, ensuring timely delivery of high-quality deliverables and adapting workflows based on project requirements.

Projects

Air Ticket Booking B2B-B2C Front-End (Techwoozy LLC)

10/2024 - 07/2024

Online Travel Agency Web Application Development

Description: I'm working on the "Air Ticket Booking System (OTA) B2C & B2B" for **Trip Beyond**, using **Next.js**, **Redux.js**, and **Tailwind CSS**. I led the project from R&D to implementation, creating reusable components and focusing on dynamic routing, authentication, and user flow. The project follows a hybrid approach, combining **Agile SDLC** for development with **Waterfall** for documentation and requirement engineering. I ensured the system's scalability, performance, and an optimized user interface.

VisaTea

10/2024 - Present

Your Passport to Global Opportunities

I am currently working remotely on a one-time project to develop the main website for **Visa Tea**, a student visa consultancy startup. This project is part of my full-stack learning, where I'm using **Next.js**, **Tailwind CSS**, and **Shadcn/UI** for the front-end, and **NestJS**, **Easy Peasy Redux**, and essential **auth packages** for the back-end. The website is designed to provide a seamless user experience for those seeking education and visa services.
